22.220 Planning

The planning application 22/03943/AOP, for 93 dwellings on land off Brandon Close, Aston Clinton, was considered and the following comments were raised:

Buckland Parish Council objects to the above planning application for the following reasons:

- The site lies outside the settlement boundaries of both Aston Clinton and Buckland, as defined by policy H1 of the Aston Clinton Neighbourhood Plan and policy BP1 of the Buckland Neighbourhood Plan.
- The site is adjacent to the Buckland Conservation Area and is contrary to that document.
- The site shares a boundary with the Moat scheduled ancient monument and lies very close to listed buildings, Moat Farmhouse, Great Moat Barn and the Old Bullpen. The development will have a negative effect on the settings of these heritage assets, contrary to policy BP14.
- The site fails to preserve or enhance the Buckland Conservation area and is therefore contrary to the Neighbourhood Plan policy BP2.
- Development on this site will cause further coalescence between Buckland and Aston Clinton, contrary to policy BP5.
- Buckland Neighbourhood Plan has been completely ignored by the applicant. Why?
- There are no allocations for further development within Aston Clinton in VALP, and therefore this application is contrary to policy D3 of that document.
- The proposed development is also contrary to policy BE1 of VALP.
- Due to recent development of unallocated 700 dwellings with no supporting infrastructure in Aston Clinton, local schools, GP surgery, roads, NHS facilities, and other social infrastructure is now unable to cope, even with the current increase in the local population. Any further development would be unsustainable, contrary to the NPPF.

Decision: For these reasons given above this application must be refused.
